Akshat Verma

AI Product Manager · AI Governance & Risk · Software and AI Engineering

Enterprise AI · Decision Assurance · Responsible AI · Full-Stack and Machine-Learning Systems

Ghaziabad / Delhi-NCR, India | +91 9891258917 | akshatverma26062004@gmail.com | linkedin.com/in/akshat-verma-242a79254 | github.com/AKSHATv26

PROFESSIONAL SUMMARY

Technology professional who combines software and machine-learning engineering with AI product management and standards-based AI governance. Currently AI Product Manager on the Founding Team at **CredgeSol.ai**, shaping the **Credge Clarity Engine** — an enterprise decision-assurance platform that applies policy enforcement, risk classification, human-in-the-loop escalation and tamper-evident auditability to AI-driven decisions before they execute. Experience spans industrial AI on NVIDIA DGX infrastructure, production dashboards for a 40+ brand agency and a portfolio of shipped web and AI projects, underpinned by ISO/IEC 23894 and ISO/IEC 42001 credentials and a published research practice. Brings an evidence-first approach to turning complex customer and regulatory requirements into dependable, explainable systems.

CORE COMPETENCIES

Engineering & technology Python · Java · TypeScript · JavaScript · SQL · C · React · Next.js · Spring Boot · FastAPI · REST APIs · PyTorch · TensorFlow · OpenCV · computer vision · generative AI · LLM applications · PostgreSQL · MySQL · Supabase · pgvector · Docker · Kubernetes · AWS · NVIDIA DGX · CUDA · Linux · GitHub Actions

Product & business product strategy · requirements engineering · regulatory-to-capability translation · user-journey optimisation · execution planning · stakeholder management · enterprise delivery · data-driven dashboards · low-code platforms (Appsmith, UI Bakery, Hex) · business-model fundamentals

Governance, risk & quality AI governance · AI risk management (ISO/IEC 23894) · AI management systems (ISO/IEC 42001) · NIST AI RMF · EU AI Act alignment · responsible and explainable AI · human-in-the-loop oversight · policy-as-code · audit trails · evaluation design and its limits

Professional technical research and writing · conference presentation · product demonstration · cross-functional collaboration · structured problem solving

PROFESSIONAL EXPERIENCE

CredgeSol.ai — Noida, India · Hybrid

AI Product Manager, Founding Team — Jul 2026 – Present

- Steer the development of the Credge Clarity Engine, an enterprise AI governance platform, contributing to product strategy and execution as a member of the Founding Team.
- Translate customer and regulatory requirements into scalable product capabilities across AI governance, AI risk management, decision assurance and explainability, supporting alignment with ISO/IEC 42001 and enterprise governance frameworks.
- Design the governance layer that applies policy enforcement, risk classification and compliance controls before AI-driven decisions execute, complemented by human-in-the-loop escalation, explainability and tamper-evident audit trails.
- Lead product refinement, user-journey optimisation and execution planning for enterprise customers in close collaboration with engineering, design and leadership.
- Represented the platform on the CredgeSol AI booth team at India Mobile Congress 2026 (Booth AI-103, New Delhi), where the Credge Clarity Engine was demonstrated; present the work in webinars and live product demonstrations.

AI Intern, Decision Systems & Governance — Apr 2026 – Jul 2026 · Remote

- Contributed to the design and development of a decision-assurance layer between AI outputs and enterprise execution: context validation, scoring and rule-based control, pre-execution risk and policy evaluation, explainability and audit logging.
- Applied rule-based and AI-assisted decision pipelines to multi-domain use cases in EV adoption and IT governance — AI evaluated and governed before it executes.

Grapes Worldwide (Gaup Media Pvt Ltd) — New Delhi, India · On-site

Web Development Intern — Jun 2025 – Jul 2025

- Delivered data-driven dashboards and workflow-based systems used in live production operations for a global integrated-marketing agency serving 40+ brands, including L'Oréal, Tech Mahindra, Wipro Lighting, Mankind Pharma and Eicher.
- Built full-stack web applications and AI-powered dashboards for data visualisation and decision support; improved efficiency and user experience through optimised API handling, using Appsmith, UI Bakery and Hex to accelerate delivery.

Global Infoventures Pvt. Ltd. (NVIDIA Partner) — Ghaziabad, India · On-site

AI/ML Intern (Apprenticeship) — May 2024 – May 2025

- Developed and deployed real-time industrial AI systems for compliance monitoring and safety automation, engineering data and inference pipelines on NVIDIA DGX infrastructure with Docker and AWS.
- Built and evaluated machine-learning workflows in Python on GPU infrastructure with PyTorch, TensorFlow, OpenCV, Roboflow and CUDA.
- Selected for the GRIL Programme, an NVIDIA-backed industrial AI track; completed 80 hours of certified AI and machine-learning training.

SELECTED PROJECTS

CredgeAiVerse · Knowledge-graph platform · active development

Evolving knowledge graph tracking 58+ AI concepts across five lifecycle states, with lineage tracing, cited publications, an interactive 2D/3D graph and an automated ingestion pipeline; seed-set validation reached 86.7% agreement with a three-member senior-architect panel (13 of 15).

Next.js · Supabase/PostgreSQL · pgvector · NVIDIA NIM · Llama 3.3 70B · D3.js

OpsPulse · Operations dashboard · personal build, 2025 github.com/AKSHATv26/OpsPulse-Dashboard

Conceived and shipped a low-code platform for workforce, project and live-assignment management, with Google Sheets as a dynamic backend, JSObjects for business logic and real-time synchronisation across four modular pages.

Appsmith · Google Sheets · JSObjects

LIFELONG · Life-management system · personal build, 2025

Built a discipline-first single-page application with six modules, including protocol-adherence tracking, prioritised missions, syllabus gap analysis and training logs with audio feedback.

React · TypeScript · Tailwind CSS · Supabase

WeSafe · Human-safety platform · academic project, team of two · frontend lead github.com/AKSHATv26/WeSafe

Engineered the responsive front end and UI/UX of a platform delivering real-time SOS alerts, location-based safety updates and access to verified support networks.

Web · event-driven workflows

E-Blood Bank (Blood Chain) · Academic project · lead developer github.com/AKSHATv26/Blood-Chain-Supply-Management-System

Led development of a donor–recipient platform with a real-time request flow and donation management; recognised in a college competition.

Java · MySQL

RESEARCH AND PUBLICATIONS

The Curiosity Series · Twelve self-directed research essays · nine published, 2026

Long-form investigations built on one method — claim, evidence, mechanism, boundary, conclusion. The flagship, *The Untestable Machine*, argues that AI evaluation rests on unsampleable input spaces and benchmark contamination reported as high as 91.8%, so governance must carry what testing cannot establish. Also profiles Leslie Lamport's work on distributed consensus and traces a viral claim about Fei-Fei Li to its source.

ETCA-2026 conference presentation · ABES Institute of Technology · Feb 2026

"Digital Heritage Web App: An AI-Driven Digital Heritage Platform for Structured Knowledge and Cultural e-commerce," built for Smart India Hackathon problem SIH25130 (team of five; React · Node.js · Express · MongoDB). Related manuscript submitted to IJERT, under review.

Research proposal to ISRO · Outreach & Academic Collaboration Cell

"Post-2020 Temporal Perception Shift": proposes a Perceived Time-Compression Index with a testable methodology.

CERTIFICATIONS

ISO/IEC 23894 Certified Lead AI Risk Manager — BCAA UK · BCAA-LAIRM-IN-1015 · Jun 2026 – Jun 2029

ISO/IEC 42001 Certified Lead Implementer — BCAA UK · BCAA-AIMSLI-IN-1107 · Jul 2026 – Jul 2029

Artificial Intelligence and Machine Learning (80 hours) — GI Ventures, NVIDIA Partner · GRIL Programme · 2024–25

GenAI Powered Data Analytics Job Simulation — Tata / Forage · Oct 2025

Introduction to Artificial Intelligence — Infosys Springboard · Sep 2025

Java Full Stack Development (96 hours) — Udemy · Jul 2025

Front End Web Development Using React (40 hours) — ABESIT · Dec 2024

Entrepreneurship: How To Start A Business From An Idea — Udemy · Jan 2026

EDUCATION

Bachelor of Technology, Information Technology Aug 2022 – Jun 2026

ABES Institute of Technology, Ghaziabad · Dr. A.P.J. Abdul Kalam Technical University

Cumulative CGPA 7.31 / 10, First Division · Semester 8 SGPA 9.25 · Project-II grade A+

Senior Secondary (Class XII) Mar 2022

Silver Line Prestige School, Ghaziabad

LEADERSHIP AND ACTIVITIES

- Head, Rotary Interact Club — community service and youth leadership (member, Class 9–12)
- Governor's Award — inter-school skit on the Hiroshima–Nagasaki peace theme
- Research Member, Wireless World Research Forum · Founding Member, Bharat IPv6 Forum · multi-sport athlete
